

“The Magic Of Education”

Education by Magical Dreams

Keynote Magic & Motivation

Remarkably effective educators hold a set of core beliefs in common - beliefs about students, about teaching, and about themselves. Internalizing these beliefs, then, is essential to preparing good teachers for the classroom. By formulating, nurturing, and communicating the proper belief system, you can quickly inspire and motivate students, faculty, and staff to exemplary status.

Demolishing the false beliefs that prevent effective teaching.

In this hilarious, but provocative combination of classic magic, message and motivation, Billy Riggs explodes the debilitating myths that render teachers ineffective, and identifies four cardinal realities of education.
