

“No Illusions About Network Marketing”

Exposing the beliefs which hinder success in
multi-level marketing and direct sales organizations

Keynote Motivation and Magic

***Network Marketing is not just a
business; it's an entire
belief system!***

False beliefs constitute a new distributor's greatest barrier to success. Instilled in us by traditional business models, these phony perceptions reside in the subconscious mind where they are difficult to see, and very resistant to change... until now!

***Demolish the debilitating illusions that
cripple strong downline growth.***

Successful networkers hold a set of beliefs in common; struggling distributors hold their *illusions* in common. Beneath their words and smiles lurk misconceptions that undermine confidence and arrest potential.

In a dazzling display of humor, audience participation and illusions, Billy Riggs will *dis-illusion* your sales force, sending them back into the field with *more* enthusiasm, *better* presentations and *greater* success.

Who should attend?...

***Executives,
Top Sales Leaders
and Distributors.***
