

“How to Start An Epidemic Without Becoming a Plague”

Management by Infectious Dreams

Workshop / Seminar

Remarkably effective managers hold a set of core beliefs in common - beliefs about people, about business, and about themselves. Teaching these beliefs, then, is essential to training good managers. By formulating, nurturing, and communicating the proper belief system, you can quickly achieve the total goal ownership necessary for immediate and spectacular success.

Demolishing the false beliefs that prevent extraordinary leadership.

In this entertaining, but motivational program, Billy Riggs identifies the eight qualities of a remarkably effective leader, and provides practical tools for excellent management.
